

I don't believe giving priority to LPFM over FM translator service would serve the public interest in reference to the radio station K-LOVE (91.3) in my area. K-LOVE provides a positive and encouraging music for those of us who enjoy Christian music. They also provide a place for the local community to get announcement out for free events that the public can attend. If K-LOVE is displaced by a LPFM broadcaster the local community would lose a source of encouragement, help in time of need and just being able listen to Christian music.

Thanks
